**If you're having trouble scanning codes, check the following:**

- The code should be centered and focused in your mobile device's camera screen
- Consider moving your device closer to or farther away from the code
- The code should be well lit, without significant shadow
- Avoid scanning from a significant angle
- Confirm that the device's app supports 2D QR Code scanning
- Try another QR Code Reader App; not all apps are created equal
- After scanning, you may experience a "connection error" message or a "connecting" message with no subsequent response. These messages typically indicate that your device is having trouble connecting to the Internet

# Voice Recognition\*†2,6

## Voice Recognition and Phone Contact Tips

The system may have difficulty understanding some accents or uncommon names. Improve the performance by making a few simple changes to your phone contacts, listed below. To help optimize the *Bluetooth*® Wireless Technology Voice Recognition system, see other tips and reminders under Quick Tips:

- Use full names (first and last names) vs. short or single-syllable names ("John Smith" vs. "Dad," "Smith Residence" vs. "Home")
- Avoid using special characters, emojis or hyphenated names (@, &, #, /, -, \*, +, etc.)
- Avoid using acronyms ("In Case of Emergency" vs. "ICE") or words with all capital letters

### QUICK TIPS

- The system may register or pair multiple *Bluetooth*® devices. See the Car Multimedia System User's Manual for more information on setup and limitations
- When placing a call, speak in a natural, moderate tone, with clear pronunciation. The system may have trouble recognizing commands if you speak too softly or too loudly
- Always wait for the system to Beep before speaking any commands
- Turning the A/C off and closing the windows and sunroof can reduce the interference with the Voice Recognition
- Press the talk button and say "Help" to get a list of available commands

### REMINDERS:

- *Bluetooth*® Wireless Technology audio and calling functions are supported when connected to a *Bluetooth*® enabled device
- *Bluetooth*® Music Streaming: If the *Bluetooth*® music is inaudible or too low, turn up the volume on the connected phone
